

WARNS AUDIENCE THAT U. S. GATES MUST BE 'LOCKED'

Chautauqua Speaker Paints
Vivid Picture in Discussing
Immigration Question.

"A little divider, a big divider, resulting in a big quotient—that is America," said Montville Flowers, informed publicist, who presented his lecture, "America, Looking Ahead," at the initial evening program offered by the Redpath Chautauqua at Leeper Park Tuesday evening. The big tent was largely filled by an interested audience. Presiding Mr. Flowers' lecture a picture of music and reading by the Oceanic Concert company delighted the attendants.

"This problem of long division, which is America," continued the speaker, "represents the elements which go to make up the essential factors in the country's future as a nation. The dividend added to America's natural resources, the divisor, her population and the resultant quotient, her standard of living, which by the way is appreciably higher than that of any other country on the globe."

Faces Two Questions.
"Involved in the problem is the maintenance of the high standard of living now obtaining in America. The standard, 11 times higher than that of Japan, must be continued at any cost," advised Mr. Flowers. "No nation, no government and no religion can survive that does not give cognizance to the material, physical elements that measure in terms of human happiness its success as an institution. Life can not be sustained without bread, neither can nations live without the material resources."

"Today, America must deal with two questions," averred the speaker, "her limited natural resources and her ever increasing population. An extravagant expenditure of natural resources and an inferior social order will result and thrust the country into world oblivion."

"Since the war, which resulted in economic fluctuations of such magnitude that many people mistake them for social and political revolutions and an inferior social order will result and thrust the country into world oblivion."

"Japan, coming out of the war with almost negligible casualties, has asked for and received from the peace conference greater concessions than all the other allies combined, and she is the greatest menace to our power. Japan is even now plotting aggressive measures to overrun the country with Japanese war and to accept cheap labor from Europe and Asia regardless of the fact that they are making more monstrous our economic difficulties."

"Now is the time for America to look ahead. She must for the safety of her own blood lock her doors to the world's cast offs and she must look outside her borders for a lease on natural resources. The natural resources of the world are being offered to the nations of the world. America's standard of living depends on natural resources, for they are the only power in the world which will sustain nations. To augment the decreasing supply of resources she must get into the market and purchase in competition with the other nations."

With the final plea that the citizens of the country spread the urgency for a limited immigration and encourage the purchase of natural resources without our borders, Mr. Flowers closed the evening's program.

The program for Tuesday afternoon was replete with friendly and informal numbers by the Oceanic Concert company. The group is composed of five young women talented in music and charming in manner. Miss Amelia Carstens, pianist; Miss Emily Gerard, cellist; Miss Ellen Ferguson, soprano; and Miss Edith Truitt, drums, were the entertainers who pleased at both performances.

This afternoon's program will feature the Chapel singers, a group of five vocalists who will present numbers both sacred and popular. Tonight, Lewis A. Convis, who has recently returned from two years in Siberia, will deliver his lecture on "Personal Experiences With the Bolsheviks in Russia."

Machines Badly Damaged; Occupants Escape Injury

An accident in which no persons were injured, but in which two automobiles were badly damaged, occurred at Mishawaka Tuesday evening.

M. Thompson, Niles, Mich., according to the police, was driving north on Eddy st., while W. E. Butterworth, Mishawaka, was turning off Eddy st. into Mishawaka av. when the crash happened. Butterworth told the police he was blinded temporarily by the headlights on the Thompson car, and did not realize his danger until it was too late. The police ambulance was summoned, but the occupants of the car outside of being shaken up considerably were uninjured.

Thieves Loot Store Safe Of Contents; \$100 Missing

D. Armstrong, 122 E. Colfax av., was the victim of burglars who broke into his store late Monday night or early Tuesday morning. The thieves entered his place through a rear window and opened the safe. The money drawers were looted of about \$100 in silver, currency and checks. The loss was discovered when Armstrong opened the safe Tuesday morning.

Industrial

FILM DEVELOPING
CONCERN LOCATES
IN SOUTH BEND

New Industry to Make Specialty of Quick Service to Patrons.

South Bend is to have an additional industry. A new film developing concern is now locating here, and will be in operation within a week or 10 days.

The new concern, which is operating its business at 105 Lincoln way West, is known as Boyce & Hough. The firm is composed of Charles Boyce and Edward Hough.

The new concern will devote its entire time the film developing. It will make a specialty of completing the developing within two hours from the time the kodak films are taken to it by the patrons of the concern.

An apparatus especially designed for such work is now being installed, and it is expected that it will be in full operation within a week or 10 days.

The apparatus was invented by Mr. Boyce himself, and is the first of the kind to be operated in South Bend, and the second of its kind in the world. There is one other machine of similar design, but of a much smaller capacity.

Operates With Electricity.
The apparatus is operated electrically and does all the work necessary in developing and printing films and pictures. The film itself is placed in the apparatus, and the printed product comes out. In actual time it takes 10 minutes to develop a film and complete the printed picture. The capacity of the one apparatus is 1,000 films a day.

The new concern plans to have agents in drug stores and other places of business in various parts of the city where film rolls may be left to be delivered to the concern and returned within two hours. Several collections and deliveries are to be made by the concern daily.

"Since the war, which resulted in economic fluctuations of such magnitude that many people mistake them for social and political revolutions and an inferior social order will result and thrust the country into world oblivion."

"Japan, coming out of the war with almost negligible casualties, has asked for and received from the peace conference greater concessions than all the other allies combined, and she is the greatest menace to our power. Japan is even now plotting aggressive measures to overrun the country with Japanese war and to accept cheap labor from Europe and Asia regardless of the fact that they are making more monstrous our economic difficulties."

"Now is the time for America to look ahead. She must for the safety of her own blood lock her doors to the world's cast offs and she must look outside her borders for a lease on natural resources. The natural resources of the world are being offered to the nations of the world. America's standard of living depends on natural resources, for they are the only power in the world which will sustain nations. To augment the decreasing supply of resources she must get into the market and purchase in competition with the other nations."

With the final plea that the citizens of the country spread the urgency for a limited immigration and encourage the purchase of natural resources without our borders, Mr. Flowers closed the evening's program.

This afternoon's program will feature the Chapel singers, a group of five vocalists who will present numbers both sacred and popular. Tonight, Lewis A. Convis, who has recently returned from two years in Siberia, will deliver his lecture on "Personal Experiences With the Bolsheviks in Russia."

BOOSTERS FOR SOUTH BEND

Regular camp routine and recreation such as swimming and baseball were the main features of Tuesday's doings. The boys were visibly excited and anxious to get back home. They feel that the "war is over."

Col. L. R. Glenfield visited the camp Tuesday evening and spoke briefly to the recruits. He expressed his appreciation of the manner in which the boys had conducted themselves on the reservation and wished them a safe and pleasant journey on their return trip.

ROCHESTER, Ind., July 26—

Frank Howard of Marion, Ind., was drowned here today when he became over-balanced and fell from the boat from which he was fishing. Mr. Howard was on a visit at the camp of his daughter, Mrs. Wynnyan, at Lake Malheur.

THOUSANDS PLAN
TO SEE HISTORIC
TRAIN VISIT HERE

Ninety-Year-Old Locomotive and Coaches Go Through South Bend.

Thousands of South Bend men, women and children are planning to take advantage of the opportunity Friday morning to see the New York Central's first train, which is now 90 years old.

The ancient and quaint train will remain in South Bend two hours Friday morning, arriving here at 8:30 o'clock and leaving for Chicago at 10:30 o'clock.

The train is known as the "DeWitt Clinton" train, and it made its first trip between New York city and Albany 90 years ago. Those who view the historic train on its visit here will be given some idea of the progress made in steam road locomotion during the past 90 years.

The same quaint locomotive and the three ancient coaches that comprised the train on its initial trip between New York city and Albany 90 years ago will comprise the train that passes through South Bend Friday. The historic train is to be hauled on its journey between New York and Chicago by the celebrated locomotive, No. 995, one of the most modern locomotives of today.

An apparatus especially designed for such work is now being installed, and it is expected that it will be in full operation within a week or 10 days.

The apparatus was invented by Mr. Boyce himself, and is the first of the kind to be operated in South Bend, and the second of its kind in the world. There is one other machine of similar design, but of a much smaller capacity.

"Since the war, which resulted in economic fluctuations of such magnitude that many people mistake them for social and political revolutions and an inferior social order will result and thrust the country into world oblivion."

"Japan, coming out of the war with almost negligible casualties, has asked for and received from the peace conference greater concessions than all the other allies combined, and she is the greatest menace to our power. Japan is even now plotting aggressive measures to overrun the country with Japanese war and to accept cheap labor from Europe and Asia regardless of the fact that they are making more monstrous our economic difficulties."

"Now is the time for America to look ahead. She must for the safety of her own blood lock her doors to the world's cast offs and she must look outside her borders for a lease on natural resources. The natural resources of the world are being offered to the nations of the world. America's standard of living depends on natural resources, for they are the only power in the world which will sustain nations. Never Again! Bathers Vow to Remain Hiding Out at Indian Resort

Special to The News-Times: DOWAGIAC, Mich., July 26—The present sight abbreviated bathing suits, while they may be tolerated on the beach, are absolutely all wrong in an ice cream parlor, at least in Dowagiac.

Two pretentious men, who sauntered into the soda fountain at Indian Lake yesterday found this out much to their discomfort. After a dip in the lake and a stroll on the beach they decided to motor up and get a soda in Dowagiac. They were met by a crowd of bathers and other all concealing and bothersome incumbrances were not available at the time so they decided to come in their aquatic costumes. They saw nothing wrong in it, they said.

Scout Executive Jo Taylor has things so arranged that not a boy who prefers to ride will be compelled to walk. It is believed, however, that the majority of the 300 who made the hike to Culver are in favor of returning in the same manner.

Plymouth, which is 12 miles away, is expected to be reached in plenty of time to make camp, enjoy a good supper, and get to bed early enough to get a good night's rest in preparation for the second day of the hike.

Hippo Has a Real Close Friend

"Hey, Jimmie! Come on quick an' see what's happenin' to de cooless an' de hippo's swallerin' her whole! Hully gee!"

And like as not you grown-up youngsters would travel 'just as fast as Jimmie, were you summoned to witness such a sight when the greatest show on earth comes to town next Friday.

But it isn't true. That is to say, the picture which accompanies this article of the Ringling Brothers and Barnum & Bailey circus press agent wasn't snapped as you see it reproduced here. It merely represents what is known as "trick photography."

Both of the subjects are with the combined circus. The little lady is Lily Letzler, who was this spring officially recorded as the world's "greatest aerial gymnast." The hippopotamus is "Saldee," valued at \$12,000, and next to the armored rhinoceros and the giraffe, the feet valuable of the thousand animals of the big double menagerie.

Miss Letzler and Saldee are close friends. But they are not quite as "close" as the illustration represents. On the contrary, the circus photographer first made a portrait of the hippo. Next he posed Miss Letzler in a swing. Then he made a double printing and so obtained this startling result. Miss Saldee will "receive" afternoon and night in her red and golden cage when the circus comes here. Miss Letzler heads the list of more than 600 human performers who will add thrills to the three hour program which includes the world's finest wild animal acts, trained horse numbers and other big features never before shown in America.

CZALLO IS GIVEN SECOND JAIL TERM

Alleged Liquor Violator Draws \$100 Fine and "30 Days" in City Court.

Alex Czallo, one of the most notorious violators of the liquor laws in the city, according to the police, faced City Judge Omacht for the second time within a week Tuesday morning and again drew a sentence similar to one pronounced upon the previous occasion—a fine of \$100 and 30 days in jail.

Czallo, who operates a soft drink parlor at 1911 S. Franklin st., and whom the police have raided numerous times, drew his first sentence about a week ago. The charge, which he was sentenced Tuesday, followed a search by the police of his establishment July 20 and their finding of liquor in his possession.

Czallo has two more charges of a similar nature to face in city court, these two being set for Friday, July 29. Should he get similar fines and sentences on each count, he would have \$400 fines to pay and 120 days to spend in jail.

In addition to the cases being tried in police court against him, Czallo, who has entered appeal on the two sentences already passed on him, will go before Federal Judge Anderson, of Indianapolis in the fall term of court to be tried on two federal indictments charging violation of the Volstead act.

CONSTANTINOPLE, July 26—The Turkish nationalist government is being removed from Ankara as a result of the Greek advance toward that city, according to information received by members of the central Order Bunc Out," and told of the city being swamped with the common brand of "Weary Willie," and at the same time depicted the straits in which those who really seek work without success sometimes find themselves.

Mr. Nelson's sympathies were aroused for the honest, unemployed for such an extent that he proposed starting a fund for this class of temporarily unfortunate workmen. In his letter to The News-Times Mr. Nelson enclosed two dollars with which to start such a fund.

However, as it is not the policy of The News-Times to conduct funds for any purpose, Mr. Nelson's contribution was returned to him with the thanks of the paper for his consideration of those who happen to be unfortunate, and with an appreciation of Mr. Nelson's spirit.

DATE DRAWS NEAR FOR ANNUAL STUNT

Many Local People Expected to Attend Reunion Aug. 10 at Berrien Springs.

Many South Bend residents are expected to attend the 45th annual reunion of the Old Settlers and Young People at Berrien Springs, August 10. For nearly half a century this gathering has been looked forward to each year by northern Indiana and southern Michigan people, and it is believed that thousands will be present.

Until last year these two events were held separately, but combined on the last occasion. Preparations are in progress by those in charge to make this year's celebration the largest of all.

The program has not yet been completed, but plans are in progress to furnish aeroplanes and other attractions, besides the races and various sports that have characterized the event. There will be music and dancing, and several speakers will deliver addresses.

Numerous old residents are expected to be there and from all appearances Berrien Springs will, no doubt, entertain the largest crowd in its history.

The case against Walter Bodura, 39 years old of 235 S. Michigan st., charged with receiving stolen goods, was continued in city court until Tuesday, Aug. 17. Bail was fixed at \$700.

Markets and Financial News

LIVE STOCK WALL STREET GRAIN

STOCKS ACTIVE ON NEW YORK MARKET
Pres't Harding's Statement to Congress Fails to Stimulate Bulls.

NEW YORK, July 26.—Trading in stocks Tuesday was a trifle broader and more active, but the increased declines were largely at the expense of values, many leading stock showing declines of one to two points. Pres't Harding's message to congress urging payment of obligations to the transportation systems, farm credits and facilitation of exports failed to stimulate bullish initiative in the highest degree. Bulls were listless and little altered, but steel, equipments, oils, motors and the many specialties dependent upon those issues were under intermittent pressure.

Leathers Affected.
Leathers were adversely affected by the poor quarterly statement of the Central Leather company and advices from the middle west, and New England indicated further slackening of industrial production. Sales amounted to \$38,000,000, and the publication of the United States Steel corporation's statement for the second quarter, issued after the close of the session, showed total earnings of \$21,892,016, the smallest returns of any quarter since March of 1915. The poor development in the money market, where call and time funds held at recent quotations was a slight easing of rates for bank acceptances and additional buying of commercial paper, exchange, with especial heaviness in Scandinavian remittances, was again ascribed to sales in London and Paris of sterling bills, against purchases of dollar exchange.

Business in the bond market fell off slightly, but the recent strong tone among rails and now corporate offering was fully maintained. Liberty issues were irregular, but most international ignored the weakness of exchange, showing variable advances. Total sales per value, \$10,650,000.

WHEAT PRICE STRONG ON CHICAGO MARKET

CHICAGO, July 26.—Export sales, said to aggregate one million bushels, had a strengthening effect on the wheat market Tuesday. Prices closed steady at the same as Monday's figures, with a slight advance in September at 123 3/4 to 124 and December 126 1/2 to 126 3/4.

Corn held 1-8 to 3-4 and 7-8 cents and oats 1-8 and 1-4 to 7-8. In provisions the outcome varied from 5 cents decline to 17 cents advance. Prospects of showers eased the corn market. Oats were depressed by country selling.

City Briefs

The Wesleyan Methodist church on S. Grove st. is holding a tent meeting each evening at 7:45 o'clock. Special music is furnished. The meeting is being conducted by Rev. and Mrs. Paul Hodge of Marion, Ind.

A small rubbish fire at 1235 W. Washington st. gave house No. 4 a run at 6 o'clock last evening. No damage was reported.

The regular semi monthly meeting of the municipal recreation committee will be held Tuesday evening at the school administration building. In cooperation with the Chautauqua this week the Leeper playground supervisors will consolidate with the Chautauqua kindergarten instructors in superintending the children's play.

Postmaster Hunter announced Tuesday receipt of a report that despite the disastrous flood at Pueblo, Colo., early in June, postal saving deposits show a remarkable increase in that office.

NEW LOCATION.
After August 1st the Chas. H. Nud Drug Store will be located at 111 West Washington ave., now occupied by Herr & Herr.

ROARING LIONS TO BREAK 'DEN' TODAY

Local Fraternal Organization Members to Enjoy Feast at Barron Lake.

The Lions club will hold its first annual outing at Barron Lake, today. The members will meet at the Y. M. C. A. this afternoon, at 2:30 o'clock and will go by motor. All Lions and their families are expected to attend. An indoor ball game and various aquatic and athletic events will feature the program.

A chicken dinner will be enjoyed late in the afternoon. It was decided not to hold the proposed luncheon at the Oliver hotel, because of the picnic.
